

Spiritual Wealth Education of Students in the National Spirit through

*Mahfuza Rahimjanovna Shermatova*¹

Abstract: Nations and nations to himself special historical heritage, art and literature with one in line their tradition and ceremonies, cultural and spiritual wealth, cultural relationship and moral qualities, spiritual values young generation in education, of the person each bilaterally maturity in finding and i socialization important role plays.

Keywords: Work, unique, great, thinker, labor, technology, educational and moral work, scholar, thinker, enlightener, national, spirit, wealth.

Technology science of teaching main basics , initial people oral creativity from samples from , great thinkers until his creation young people hard working being growth , profession study , work people respect to do and work a person praise issues separately attention given witness we will be

We are different in periods created educational and moral works and people oral creativity samples riddle, people songs, parables, proverbs, tales and in epics work and profession manners, morals and the rules appropriation important vital necessity the fact that that it is emphasized our vision can _

Unique works " Avesta ", Kaikovus ' " Nightmare ", Abu Nasr Farabi 's " Fazil people city ", Abu Rayhan Beruni 's " Geodesia ", " Minerology ", Mahmud Kashgari 's " Devon dictionary Turkish , Yusuf Khos Hajib 's " Kutadgu ". knowledge ", by Alisher Navoi one series works and that's it such as educational heritage in samples hard work , profession importance about important thoughts statement done _ These are preliminary people oral creativity in samples people epics , fairy tales , proverbs and from riddles started _

Yusuf Khos Hajib's work people about this thoughts really to them relatively respect and my respect means _ Yusuf Khos Hajib's work in education growth , improvement about views educational in terms of attention deserves _

XV century big thinker Alisher Navoi hard worker a person glorifying , labor upbringing about thoughts « Amazing Abror ", "Farhad and Shirin", "Mahbub -ul Kulub 's works are also human glorifying , to work inviter aspects with manifestation will be Love symbol through hard work is glorified . Primary class to his students technology science through to the motherland love symbol as application reaching, images appearance within moral in terms of is brought up .

Alisher Navoi real a person for the most good of virtues one shows that it is hard work . He is " Amazed ." reputation fifth in the article of people to his generosity the eye from sewing according to own hand with life forgiveness bigger and nobler that in the story "Hotam Toyi " . brings _

Hotam Toi one day sheep and lambs butchered to the people big party gives _ After get some rest for to the field comes out Ten _ on the shoulder firewood carrying coming one old man occurs . Hotam Toi o' nga « In the steppe walking unaware if you are left , leave it this heavy the load to Hotam 's house go be honored at the party , " he says . Then the old man laughing : " Oh , the one who has tied his feet with passion , enthusiasm ." to the valley step did not hit man , you too _ thorn work shy and Hotam's out of gratitude get rid of it, "- the answer does _

Enlightened a poet Furqat is also his own educational in his poems science , craft about thought driver since , har healthy the thinker a person craft to take over invitation it 's enough , to craft love put it _ to

¹ Teacher at Namangan State University

learn invitation reached person's in the world value tall the future will fly The craft is endless inexhaustible wealth as showing given _

Teacher-poet H. H. Niazi while school young people knowledgeable , polite by doing educate and to craft to teach it is necessary , " he said young people _ spiritual qualities in formation of labor role high evaluates . In his poems the children of their parents work to the value to reach encourages .

Hamza Hakimzada Niazi in youth science to get importance about speaks like " Read " , " Book " , "Pen" . in his poems science without work take over not to be about the idea before pushes _ Poems to the students conversation method through application reaching , imaginings harvest will be done . It is for young people in the future own to dreams education , science take over for from youth work to do necessity emphasizes . Above thoughts of students work in education important tool is counted .

" **Value** " the concept is too wide concept become one _ _ part-spiritual are values . National spiritual values concepts of "nationality " , " spirituality " and " value " . intersected at the point aggregated social events own _ into takes _

" National spiritual to the concept of " values " . as follows definition to give possible : Certain the nation representatives for necessary and important , dear and honorable interest _ _ _ and goals service who does spiritual wealth , deeds and principles , rules and norms national spiritual are values .

Har one of the people himself _ for honorable , valuable has been spiritual wealth will be These are centuries during from generation to generation pass _ came , present even in the day importance and value not lost , that 's it of the people pride to the source has become are masterpieces . For example , Kyrgyz People 's epic "Manas". with , the Egyptians ancient pyramids , French in Paris Louvre palace , Uzbeks _ Samarkand - Bukhara and Khiva with right respectively they are proud and this even now _ the price did not lose .

Nation and of the people to himself special historical heritage , art and literature with one in line their tradition and ceremonies , cultural relationship and moral qualities are also spiritual values to the system enters _ These are the people to himself characteristic save staying , young generation in education , of the person in socialization important role plays _ National spiritual in values , rare in the works of the people outlook and to life relationship , internal nature and marriage style own _ expression finds _ In these of the nation spiritual world and thinking style , dream expectations and ideals , conscience and honor _ reflection is enough and this students each bilaterally mature by doing educates .

To work important social duty as look , known activity in execution to feel responsibility , to work and his the result is also labor to the team respect , work activities organize in reaching initiative , activity show , own mental and physical ability complete manifestation to do has been internal need , work scientific organize reach on the way practical action take to go such as appearances rare in the works and from our ancestors the rest great in inheritances manifestation will be

To work psychological in terms of ready to be values , great scholars in his works to the eye thrown away and this educational affairs in the system done increased , their each one the following tasks solution to do help gives :

- students _ by of labor social the importance of work organize reach vital necessity of being realize to maturity reach _
- in them work activities done to increase relatively please _ wake up
- in students work skill and qualifications formation and etc[8]. _

Labor upbringing in the family classified without take will go : children to himself service they do , home animals they take care , livelihood techniques repair with are engaged . Family budget and him conduct with garden _ assignments they do , in the family children and adults work in cooperation organize of reaching possibilities infinite .

So, the students work activities organize reach in the process the following tasks done is increased :

- ✓ The students technology education in the process their to labor interests increase , professional or work to the activity ready to be provide _
- ✓ Students _ strength right distribution , activity types and him execution in reaching place replacement by means of them leadership and performance qualifications harvest to do
- ✓ The students work to the activity of encouragement efficient method and of means to use attention focus _

Labor of activity from the type strictly look work culture formation , professional activity planning , time reasonable use , own _ the place in order storage and work to their weapons cautiously in relation to be That's it usual traditions are also in children work education forms[9].

Summary by doing to say if we technology science as a creative discipline students each bilaterally creative, hardworking, to the motherland love in the spirit educates and of course this is it great scholars works, rare legacies to preserve teach from them reasonable use , education in the process own in place manners within requires application . _ History study , left great legacies protect them _ to the future deliver and this through young people perfect by doing bring up always necessary , relevant being will remain .
