**Keywords:** learning environment, foreign languages, communication, certificates, initial stages to learn, learning process, games.

**Introduction:** The potential and actual possibilities of an individual depend largely on the knowledge of languages. Who knows the language owns the world. Each language is a unique treasure trove of knowledge. One can learn to sing a song, note a piece of music, or the title of a book, but one can truly understand foreign culture, its customs, history, philosophy, and much more only when speaking the appropriate language. While studying a foreign language, one can acquire a rich vocabulary, which is not only useful for everyday communication but is also often encountered in scientific literature, periodicals, and books. Each language carries the spirit of the people and helps the individual build relationships with others, fostering a deep emotional connection with a multi-ethnic culture and allowing one to appreciate and understand spiritual and material values. A foreign language does not replace the native language but provides new opportunities to explore the world, enriching the inner world of a person and leading to a broader understanding of different phenomena. For educated people who have sufficient knowledge of the cultural history of the world, it is quite strange not to know a foreign language, as knowledge of a foreign language is a tool for the continuation of cognitive, aesthetic, and ethical interests. It has long been known that inadequate knowledge of a foreign language reflects the level of cultural development; the specific role of language plays in the formation of language and ethnic consciousness of individuals and even to what extent it is tied to the larger society.

Obstacles can be encountered with the aid of newcomers in each and every day lifestyles barring any hesitating we can say. These are extraordinarily specific however the principal ones can be stated that we may also depend with our fingers. Language problems that are regularly referred to as speech problems intrude with an individual's capability to speak. There are several issues and every has its very own wonderful symptoms. According to Whitaker (2009) language issues amongst college students can be grouped into countless classes that are associated communication. For instance, there are issues related with hearing, speech, language improvement and fluency. Whilst, the most frequent disease is the speech impairment that entails articulation and voice. In this case, articulation entails several factors of speech such as sounds, phonology and syllables. In most cases, college students who strengthen such sickness in their childhood stage may additionally trip the situation persisting to adulthood. Different college students can have distinctive difficulties and troubles in studying an overseas language as a 2nd language. Such as whilst getting to know English language most newcomers regularly face the following challenges:

### **Limited studying environments**

It is now not about the weather, the availability of furnishings in the classrooms, the place of the constructing the place new language is learning. Despite of the reality that all of the elements can impact studying whilst getting to know English, what occurs backyard of category matters most. In most situations, freshmen solely make an effort to communicate appropriate English in the study room when they are underneath supervision. In addition to this, college students do no longer usually hear humans round them speaking appropriate English. As a consequence, it turns into extra hard to study right English.

### **Unqualified teachers**

This is the most quintessential and the most unnoticed hassle amongst others. What makes this trouble so tough to resolve is that, due to the fact many communities are English language learners, they can no longer make clear who is a proper instructor and who is not. Whatever the instructor says, whether or not right or incorrect, will be taken as right with the aid of the learner. It can be led to terrific deal of confusion amongst freshmen considering exceptional instructors say them specific things. One of the fundamental motives of this problem is problem instructors have translating from their native languages. For instance, some phrases can be said in another way by using extraordinary instructors due to the fact of their language.

### **Surplus utilization of native language in the classroom**

Each pupil can study some other language exceptional when they are pressured to observe it. Instructors have to be vigilant about requiring college students to speak in English and solely in English even if they are speaking me to every other. They ought to behavior the lesson with the assist of direct approach and the lesson will be successfully as properly as reasonable. If the instructors comprehend the student`s language, it is higher to fake in the lecture room that they do not, as that will pressure them to make requests and respond to questions in English. This trouble may additionally come from the cultural needs of the household and society.

### **Strong college students dominate at some stage in the lesson**

No be counted how the freshmen are divided into groups, there will nevertheless be variations in how tons college students understand and rapidly they can learn. The most essential hassle of this state of affairs is putting the tempo of the type to maintain up with the strongest learners. It might also depart the weaker ones behind. Weaker ones must no longer be forgotten in school room discussions and activities. But additionally, they need to be the essential scenes of the lesson. They insist lots extra interest than others.

### **Learners do now not take their find out about seriously**

In some instances, novices might also take their very own research significantly even though they virtually desire to analyze the language. This may be due to the fact they might also be very busy with different matters or they have private problems. In this situation, college students regularly suppose that the equal English they can talk at domestic or on the avenue is the equal they will write in their exams. Whilst, due to the fact verbal exchange does now not have to be grammatically right in order to be intelligible, college students do now not continually abide through the policies they discovered at college and consequently do now not get wholly skilled or pass by the examination and tests. It is additionally the case that newcomers do now not find out about English as a lot as they learn about different subjects. In most cases, college students might also learn about English language solely in the study room at some stage in the lesson when the teacher is teaching. Having completed the class, they drop their books and wait for the subsequent class. They do no longer find out about pronunciation, they do now not learn about essay writing or make an effort to draw close new phrases and to construct a new vocabulary. They may additionally carry each little trouble to the instructor throughout the classes, even matters they could just seem to be it up in the dictionary or their very own vocabulary. When novices make errors and are corrected, they regularly say "It is now not my language at all". This may also extensively have an effect on their potential to research English.

### **Students turn out to be too based on the teacher**

Part of gaining knowledge of whatever skill figuring out how to resolve issues on your own. If a pupil goes to the teacher with each and every little problem she or he runs into, then the college students will by no means be in a position to examine the language on their own. If college students insist that they do now not recognize or comprehend how to say and do something on their own, they require to be reassured that they simply can with fine remarks and encouragement via others.

### **Conclusion.**

In conclusion, the acquisition of a foreign language is a complex and multifaceted process, marked by both significant challenges and facilitators. While cognitive, cultural, and psycholinguistic factors can present obstacles to language learners, technology, language learning resources, and support networks can facilitate the learning process. By acknowledging these challenges and harnessing these facilitators, language learners can overcome the difficulties of learning a foreign language and reap the numerous benefits of language proficiency. As the world becomes increasingly interconnected, the ability to communicate in multiple languages will become an essential skill for individuals, businesses, and nations, making it imperative to promote and support language learning initiatives.
