*Toshpolatov Abrorjon Mirhokimovich*¹

Annotation: In the article Armed Our forces for high qualified military personnel in preparation psychological of deeds position , military in person incarnation must has been features and their military activity and battle and another psychological tension, stress cases manifestation to be such as condition and adjectives illuminated .

Key words: Military in action of the person psychological features , military of the person psychological characteristics manifestation to be , of the military personal psychological features .

Uzbekistan Armed Powers always own activities our country strategic documents based on work will be released . This requirements basically each one lower military the team own normative normative documents work comes out and to them diary in their activities military style sure and thorough action does _ For example , Uzbekistan of the Republic (Decision of ORPQ-406 of September 14 , 2016) "To Youth about state policy " about " . military soldiers and in general personal content combative to the situation in preparation main from documents to one became _ From this besides , the President the military activity with depends many lectures and documents our military for constant main education and education , personal content combative in the spirit in education the way pointer documents is considered In particular , in the 2017-2021 years of our country on February 3 , 2021 to young people directed country development strategy with related to " Youth support and population health strengthening in the year done to increase about State program , Decision No. 3898 of August 4, 2018 and another normative documents Uzbekistan the military personal content patriotism in the spirit in preparation main normative documents is considered and to them action will be done . Military in young people to the motherland service to do like formation, that is them military to the service inclination wake up main is a task. Of inclination main content military service purpose and personal content and separately military of the person interests from harmony consists of exactly _ _ that's it responsible task, usually military educator leaders undertake is loaded.

Military in psychology of the military spiritual preparation means military _ of servant's spiritual-spiritual, psychological of preparation structural part personal content spiritual and spiritual in terms of continuously preparation deeds is understood. Defense system personal of the composition spiritual preparation we mean the whole of our military complicated conditions, stress factors with passing combative situations they are to the front placed of duties successful fulfillment which provides spiritual psychological qualities and in person spiritual psychological stability, fighting soul formed is understood. Personal in the composition spiritual , psychological of preparation military purpose in servants battle , fighting circumstances in the case of emotional-volitional stability and combative in the situation spiritual psychological management and manageability formation is considered Of course , fighting activity combat training from the activity each always difference did and combativeness to the situation preparation while each always soldiers , military content exactly here it is that's it combative to the situation preparation . This is the case first of all danger, tension, psychological in terms of very the tension of the situation intensity with unexpected way developing and variability and one series another factors with differs . Combat situations determiner spiritual feature and main factor as danger confession done _ Risk is personal health and to his life relatively the threat realize reach means _ Other of effects level of danger level depend _ That's it with together of a person to danger has been reaction different different to be possible : conscious , involuntary , impulsive , direct , reaction to the scheme right coming condition _ To danger relatively has been of reaction character looking behavior is also qualified : first in the state he is conscious respectively managed , the second in case - situational or impulsive to be possible , that is complete surface came to the situation depends will be

Combat of the situation main indicator risk, variability with one in line surprise to himself is typical . Smart and insidious the enemy in battle of the opponent combative readiness drop off for of course surprise from the principle of uses _ Military of servants spiritual preparation during pending combative of actions to himself characteristics and conditions , it perform during difficulties and them overcome ways about in detail information to be given need _ Your opponent movement to do tactics and combative opportunities batafs year learning and this information personal to content own on time deliver necessary _ Exactly this factors military in servants surprise and suddenly surface coming situations of probability to decrease , even Entirely eliminate to be help gives _ Combat preparation during military in servants necessary spiritual psychological adjectives of formation ways and methods differently to be can _ To them some cases continuously repetitions through if achieved , another situations one how many there is repetition also needed through the results take over can _ Fight person to the psyche serious effect doer factors Create for combative situation modeling of this for while in the military imagination strength bring up separately important have will be Above shown of factors all especially _ military of the person in the spirit Homeland in front of sense of duty , of this for while in it military from patriotism except military Commonwealth , own to his comrades trust the soul bring up and this concept and skills their
